### Complete your toolbox! Rameder's four-part set of pliers

Pairs of pliers in Europe go back to approx. the 2<sup>nd</sup> century BC. The Greek god of blacksmiths and fire, Hephaestus, for example, was depicted on vases holding such a pair. These days, of course, you can no longer be without these very convenient tools. **Rameder** sells a high-quality [four-part set](#) of pliers for only EUR 21.99.

The **Rameder** set includes a pair of combination pliers, telephone pliers, side cutters and water pump pliers, all made of high-quality tool steel and featuring anti-slip 2-component grip sleeves, which make them feel good in your hands. These VPA/GS-tested tools are perfect for any assembly or dismantling work.

And [www.rameder.eu](http://www.rameder.eu) also has available other [tools](#) and quite a number of automotive and transport products.
