Pimp my Pickup

Towbars from Rameder for Mercedes-Benz X-Class

Since September 2018, the Mercedes-Benz X-Class is no longer available ex works with a towbar with a ball head. Yet this is no cause for concern. Rameder is there for you, to easily and conveniently retrofit the off-road pickup. The hitch block as a complete set (incl. electrical kit) has a towing load of 3500 kg and a vertical load of 195 kg and can be ordered for 227 Euro on www.rameder.eu.

Rameder, Europe's market leader for vehicle transport accessories, finds the right car accessory for every kind of need. Even if towbars are no longer available ex works. This is what happened with the Mercedes-Benz X-Class. But the company from Thuringia is working to remedy this problem and is simply and inexpensively retrofitting the hitch for the robust pickup. The practical towbar search tool from **Rameder** leads quickly and easily to the right model. The complete set with 2-hole flange ball consists of a towing bracket, the 13-pin electrical kit and the assembly instructions required for installation. Of course, all components have been engineered to fit the Mercedes-Benz X-Class. With a carrying capacity of 195 kg, the trailer hitch is optimally suited for the transport of bicycles with the help of a bicycle carrier. In addition, up to 3500 kg can be pulled using a trailer. Testing of the vehicle by an expert and the registration in the vehicle documents are not required. However, the vehicle manufacturer's instructions should be noted or kept as such in the vehicle user manual.

Even the necessary accessories to make the X Class a true all-rounder can be found at **Rameder**. For example, there are numerous bike carriers for the towbar available. In addition to the uncomplicated assembly, the easy charging of the wheels is a big plus, as they only need to be raised to the height of the towbar. Perfect for transporting bicycles or e-bikes safely. In the well-stocked **Rameder** shop, available at www.rameder.eu, many other car products are made available to car enthusiasts.
